The CUE is WINning!

Imagine for a minute, the power of being able to provide individualized support to each student based on their areas of strength and weakness. As of October 1st, we have been doing just that at Charlotte Upper Elementary. All students are a part of their very own W.I.N. (What I Need) group during designated times throughout the day. Each grade level of teachers shares this common W.I.N. time along with support teachers. This allows us to have as many as 14 different

teachers working with groups during W.I.N. time. Students who are in need of more support are able to get small group support from expert teachers in their area of weakness. Students who are in need of a bit of a challenge are able to get extension during this time as well. This program is offered to support both math and language arts skills. We can't wait to see the positive impact that this will have on student success.
