Together we are a Masterpiece!

The Kindness and Compassion (KC) Club led by Angi Jewell and Celena Bruch has kicked the school year off with a creative flair at Charlotte Upper Elementary! The club's goal is to spread kindness and compassion throughout the school on a daily basis. It was formed three years ago as a student leadership component to the Rachel's Challenge curriculum. This year, the group coordinated a special school wide project. Each student and staff member at the CUE designed a square as unique as they are. When four of the squares are put together, a circle is formed. The KC Club spent its first two meetings working as a team to glue about 650 squares together to create the murals that will soon hang in the halls at the CUE. In the end, the club decided that the following statement sums up this project and part of our legacy this year, "Individually we are unique - Together we are a masterpiece!"
