

In Session with the “Oriole” Superintendent

By Mark D. Rosekrans, Superintendent of Charlotte Public Schools

Great Things Happening at Charlotte Public Schools

Former Charlotte High School teacher and current Michigan State University instructor, Mr. Chris Kaiser, coordinated the visit through MSU and CPS. Mr. Kaiser and the India scholars will tour the High School and visit classrooms. Their focus will be to visit math classes and have conversations with staff on standards based grading. The visit to Charlotte is something Mr. Kaiser wanted to showcase to the India scholars as he is proud of his past teaching assignment here and the many instructional initiatives we presently have underway to benefit our students and their academic preparations and performance.

We welcome back Mr. Kaiser and hope the India scholars enjoy Charlotte High School.

I also want to take this time to congratulate our Charlotte High School O-Bots robotics team on making it to the national level of competition! Watch for more information in the days to come.

MSTEP testing is set to begin in grades 3-8 and 11. The testing window is different at each building so parents need to check with each main office, review newsletters, and access our website for specific information concerning the testing of their student(s).

I wish all students good luck on the tests and hope each of you do your very best.

--- Go Orioles! Oriole Pride!
