Effective Date: On or after July 2015

Benefits-at-a-glance

This is intended as an easy-to-read summary and provides only a general overview of your benefits. It is not a contract. Additional limitations and exclusions may apply. Payment amounts are based on BCBSM's approved amount, less any applicable deductible, copay and/or coinsurance. For a complete description of benefits please see the applicable BCBSM certificates and riders, if your group is underwritten or any other plan documents your group uses, if your group is self-funded. If there is a discrepancy between this Benefits-at-a-Glance and any applicable plan document, the plan document will control.

Preauthorization for Select Services Services listed in this BAAG are covered when provided in accordance with Certificate requirements and, when required, are preauthorized or approved by BCBSM except in an emergency.

Note: To be eligible for coverage, the following services require your provider to obtain approval **before** they are provided - select radiology services, inpatient acute care, skilled nursing care, human organ transplants, inpatient mental health care, inpatient substance abuse treatment, rehabilitation therapy and applied behavioral analyses.

Pricing information for various procedures by in-network providers can be obtained by calling the customer service number listed on the back of your BCBSM ID card and providing the procedure code. Your provider can also provide this information upon request.

Preauthorization for Specialty Pharmaceuticals - BCBSM will pay for FDA-approved specialty pharmaceuticals that meet BCBSM's medical policy criteria for treatment of the condition. The prescribing physician must contact BCBSM to request preauthorization of the drugs. If preauthorization is not sought, BCBSM will deny the claim and all charges will be the member's responsibility.

Specialty pharmaceuticals are biotech drugs including high cost infused, injectable, oral and other drugs related to specialty disease categories or other categories. BCBSM determines which specific drugs are payable. This may include medications to treat asthma, rheumatoid arthritis, multiple sclerosis, and many other diseases as well as chemotherapy drugs used in the treatment of cancer, but excludes injectable insulin.

Blue Cross Blue Shield of Michigan is a nonprofit corporation and independent licensee of the Blue Cross and Blue Shield Association.

Services from a provider for which there is no Michigan PPO network and services from an out-of-network provider in a geographic area of Michigan deemed a "low access area" by BCBSM for that particular provider specialty are covered at the in-network benefit level. Cost-sharing may differ when you obtain covered services outside of Michigan. If you receive care from a nonparticipating provider, even when referred, you may be billed for the difference between our approved amount and the provider's charge.

Member's responsibility (deductibles, copays, coinsurance and dollar maximums)

Note: Member cost-sharing requirements are administered on a benefit year basis. Your benefit year begins on July 1 and ends the following year on June 30.

Note: If an in-network provider refers you to an out-of-network provider, all covered services obtained from that out-of-network provider will be subject to applicable out-of-network cost-sharing.

Simply BlueSM PPO HSA LG - Prescription Drug Coverage

Effective Date: On or after July 2015

Benefits-at-a-glance

This is intended as an easy-to-read summary and provides only a general overview of your benefits. It is not a contract. Additional limitations and exclusions may apply. Payment amounts are based on BCBSM's approved amount, less any applicable deductible, copay and/or coinsurance. For a complete description of benefits please see the applicable BCBSM certificates and riders, if your group is underwritten or any other plan documents your group uses, if your group is self-funded. If there is a discrepancy between this Benefits-at-a-Glance and any applicable plan document, the plan document will control.

Specialty Pharmaceutical Drugs - The mail order pharmacy for **specialty drugs** is Walgreens Specialty Pharmacy, LLC, an independent company. Specialty prescription drugs (such as Enbrel® and Humira®) are used to treat complex conditions such as rheumatoid arthritis, multiple sclerosis and cancer. These drugs require special handling, administration or monitoring. Walgreens Specialty Pharmacy will handle mail order prescriptions only for specialty drugs while many in-network retail pharmacies will continue to dispense specialty drugs (check with your local pharmacy for availability). Other mail order prescription medications can continue to be sent to Express Scripts. (Express Scripts is an independent company providing pharmacy benefit services for Blues members.) A list of specialty drugs is available on our Web site at bcbsm.com/pharmacy. If you have any questions, please call Walgreens Specialty Pharmacy customer service at 1-866-515-1355.

We will not pay for more than a 30-day supply of a covered prescription drug that BCBSM defines as a "specialty pharmaceutical" whether or not the drug is obtained from a **90-Day Retail Network provider** or mail-order provider. We may make exceptions if a member requires more than a 30-day supply. BCBSM reserves the right to limit the initial quantity of select specialty drugs. Your copay will be reduced by one-half for this initial fill (15 days).

Member's responsibility (copays)

Your Simply Blue HSA prescription drug benefits, including mail order drugs, may be subject to the **same deductible and same annual out-of-pocket maximum required under your Simply Blue HSA medical coverage**. Benefits are not payable until after you have met the Simply Blue HSA annual deductible. After you have satisfied the deductible you are required to pay applicable prescription drug copays which are subject to your annual out-of-pocket maximums.

Note: The following prescription drug expenses will not apply to your Simply Blue HSA deductible or annual out-of-pocket maximum:

- Any difference between the Maximum Allowable Cost and BCBSM's approved amount for a covered brand name drug.
- The 20% member liability for covered drugs obtained from an out-of-network pharmacy.

Features of your prescription drug plan

BCBSM Custom Formulary	<p>A continually updated list of FDA-approved medications that represent each therapeutic class. The drugs on the formulary are chosen by the BCBSM Pharmacy and Therapeutics Committee for their effectiveness, safety, uniqueness and cost efficiency. The goal of the formulary is to provide members with the greatest therapeutic value at the lowest possible cost.</p> <ul style="list-style-type: none"> • Tier 1 (generic) - Tier 1 includes generic drugs made with the same active ingredients, available in the same strengths and dosage forms, and administered in the same way as equivalent brand-name drugs. They also require the lowest copay, making them the most cost-effective option for the treatment. • Tier 2 (preferred brand) - Tier 2 includes brand-name drugs from the Custom Formulary. Preferred brand name drugs are also safe and effective, but require a higher copay. • Tier 3 (nonpreferred brand) - Tier 3 contains brand-name drugs not included in Tier 2. These drugs may not have a proven record for safety or as high of a clinical value as Tier 1 or Tier 2 drugs. Members pay the highest copay for these drugs.

Features of your prescription drug plan

Prior authorization/step therapy	A process that requires a physician to obtain approval from BCBSM before select prescription drugs (drugs identified by BCBSM as requiring preauthorization) will be covered. Step Therapy , an initial step in the "Prior Authorization" process, applies criteria to select drugs to determine if a less costly prescription drug may be used for the same drug therapy. This also applies to mail order drugs. Claims that do not meet Step Therapy criteria require prior authorization. Details about which drugs require Prior Authorization or step therapy are available online at bcbsm.com/pharmacy .
Mandatory maximum allowable cost drugs	If your prescription is filled by an in-network pharmacy, and the pharmacist fills it with a brand-name drug for which a generic equivalent is available, you MUST pay the difference in cost between the BCBSM approved amount for the brand-name drug dispensed and the maximum allowable cost for the generic drug plus your applicable copay regardless of whether you or your physician requests the brand name drug. Exception: If your physician requests and receives authorization for a nonpreferred brand-name drug with a generic equivalent from BCBSM and writes "Dispense as Written" or "DAW" on the prescription order, you pay only your applicable copay. Note: This MAC difference will not be applied toward your annual in-network deductible, nor your annual coinsurance/copay maximum.
Drug interchange and generic copay waiver	BCBSM's drug interchange and generic copay waiver programs encourage physicians to prescribe a less-costly generic equivalent. If your physician rewrites your prescription for the recommended generic or OTC alternate drug, you will only have to pay a generic copay. In select cases BCBSM may waive the initial copay after your prescription has been rewritten. BCBSM will notify you if you are eligible for a waiver.
Quantity limits	To stay consistent with FDA approved labeling for drugs, some medications may have quantity limits.
