INDEPENDENT AUDITOR'S REPORT

To the Board of Education
Charlotte Public Schools
Charlotte, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Charlotte Public Schools as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Charlotte Public Schools' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Charlotte Public Schools as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 5, 2009, on our consideration of Charlotte Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The administration's discussion and analysis and budgetary comparison information, as identified in the table of contents, are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Charlotte Public Schools' basic financial statements. The accompanying other supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

This section of Charlotte Public Schools' annual report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2009. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

The Administration's Discussion and Analysis, a requirement of GASB 34, is intended to be the Charlotte Public Schools' Administration's discussion and analysis of the financial results for the fiscal year ended June 30, 2009.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Charlotte Public Schools financially as a whole. The *District-wide Financial Statements* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and longer-term view of the finances. The *Fund Financial Statements* provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds - the General Fund and Capital Projects Fund individually, and the Special Revenue Funds, Debt Service Funds, and the 2002 Bond Project Fund, collectively as other nonmajor governmental funds. The remaining statements, the statement of fiduciary net assets, and the statement of changes in fiduciary net assets, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

District-Wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which appear first in the basic financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. These statements are prepared to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net assets - the difference between assets and liabilities, as reported in the Statement of Net Assets - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net assets - as reported in the Statement of Activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The Statement of Net Assets and Statement of Activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, supporting services, community services, athletics, and food service. Property taxes, unrestricted State Aid (foundation allowance revenue), State and Federal grants, and other local dollars finance most of these activities.

The district-wide financial statements are full accrual basis statements. They report all the District's assets and liabilities, both short and long-term, regardless if they are "currently available" or not. For example, assets that are restricted for use in the Debt Service Funds solely for the payment of long-term principal or interest are grouped with unrestricted assets of the General Fund. Capital assets and long-term obligations of the District are reported in the Statement of Net Assets of the district-wide financial statements.

Fund Financial Statements

The fund level financial statements are reported on the modified accrual basis. Only those assets that are "measurable" and "available" are reported. Liabilities are recognized to the extent that they are normally expected to be paid with current financial resources.

The fund statements are formatted to comply with the legal requirements of the Michigan Department of Education's "Accounting Manual." In the State of Michigan, the District's major instructional and instructional support activities are reported in the General Fund. Additional activities are reported in their relevant funds including: Debt Service Funds, Capital Project Funds, and the Special Revenue (School Service) Funds which are comprised of: Food Service, Athletics, Performing Arts, Community Service, and Childcare.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. No capital assets are reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long-term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

District Financial Activities:

The recent good health of the District's finances can be credited to the following innovative management approaches during a time of restricted state funding due to a weak economy and significant tax reductions at the state level:

- A board policy which requires a balanced budget with a fund balance goal of 15 percent of annual expenditures.
- The establishment of fund balance designation at the fund financial statement level for future technology replacement.
- Utilization of a total cost compensation approach for the negotiation of employee contracts with the District's eight employee groups.
- Utilization of modern business management techniques such as the use of business plans and monthly monitoring of operational systems and financial reporting for district support functions.

Summary of Net Assets:

The following summarizes the net assets as of June 30, 2009.

Analysis of Financial Position:

As detailed above, the District shows a positive total net asset value of \$893,557 for the fiscal year ended June 30, 2009. This statement has been affected by the following factor:

- Significant debt, (\$62.8 million) was incurred by the District in 1999 and 2002 to finance the facility modification projects.

Results of Operations:

For the fiscal year ended June 30, 2009 and 2008, the district-wide results of operations were:

Analysis of Results of Operations:

During the fiscal year ended June 30, 2009, the District's net assets decreased by \$545,080. Several factors which helped cause the decrease are discussed in the following sections.

A. Governmental Fund Operating Results

The District's expenditures for governmental fund operations exceeded revenues from governmental fund operations by \$800,789 for the fiscal year ended June 30, 2009. Further discussion of the District's operating results is available in the section entitled "Results of 2008-2009 Operations" located on the following pages.

Results of 2008-2009 Operations

During the fiscal year ended June 30, 2009, the District's net assets decreased by \$545,080. A few additional significant factors affecting net assets during the year are discussed below:

A. General Fund Operations

The General Fund is the main fund for the District and includes all the costs related to educating the students of the Charlotte Public Schools such as: Salaries and benefits for Teachers, Classroom Paraprofessionals, Administrators, Secretaries, Custodians, Maintenance staff, Librarians, Counselors, Bus Drivers and other miscellaneous positions; teaching supplies, employee training, utilities, building maintenance supplies and other.

The District's expenditures from General Fund operations exceeded revenues by \$440,178 for the fiscal year ended June 30, 2009. The General Fund as of June 30, 2009, had a fund balance of \$2,684,918 or 10% of expenditures for the 2008-2009 fiscal year. The School District made approximately \$2,031,000 in budget reductions in order to balance the 2008-2009 fiscal year budget and most likely will have to continue these reductions into subsequent years unless school funding from the State of Michigan improves.

B. Debt Service Fund Operations

The Debt Service Funds consist of four separate debt funds as follows: 1999 Debt, 2002 Debt, 2005 Debt, and 2006 Debt. The Debt Service Funds are set up to collect taxes and pay annual debt payments. At June 30, 2009, the Debt Service Funds had \$1,062,016 in fund equity available for future bond payments.

The School District levies taxes to make debt payment obligations. If taxes levied are not sufficient the School District will borrow funds from the Michigan School Bond Loan Fund. Any funds borrowed from the Michigan School Bond Loan Fund will be paid back toward the end of the bond obligations. In the fiscal year ended June 30, 2009, the School District borrowed \$63,428 on the outstanding balance and the School District has a total obligation of \$6,751,398 to pay back to the Michigan School Bond Loan Fund including interest. The District also had Durant resolution bonds and compensated absences outstanding at June 30, 2009, which totaled \$277,098. The District paid principal of \$600,000 to leave \$11,640,000 outstanding on the 2002 School Building and Site General Obligation bonds at year-end. The District also paid \$950,000 on the 1999 bonds to pay off the bond and \$80,000 on the 2005 bonds to leave outstanding balances at year-end on this bond of \$33,400,000. A detailed presentation of the District's long-term debt is presented in Note E of the notes to the financial statements.

C. School Service Funds

The Charlotte Public Schools also has school service funds that include the following: Food Service Fund, Athletics Fund, Performing Arts Fund, Community Service Fund, and Childcare Fund.

The Food Service Fund is a fund that reports the food service program activities. In 2008-2009 the Food Service Fund had revenues and other financing sources of \$1,249,179 and expenditures of \$1,193,941. In addition, the Food Service fund transferred \$30,305 to the General Fund to reimburse overhead costs. The Food Service Fund is self-supporting and reimburses the General Fund for all identified overhead costs associated with its operation. The Food Service Fund had a fund balance of \$158,247.

The Athletics Fund includes all costs for high school and middle school athletic programs including the cost for coaches, officials, supplies, tournaments, and miscellaneous. Transportation cost is accounted for in the General Fund. In 2008-2009 the Athletics Fund had revenues of \$171,750 and expenditures of \$583,677. The Athletics Fund generated \$171,750 in revenue from gate receipts, passes, fees, donations, and other miscellaneous items. The Athletics Fund must be a balanced budget and the District contributed \$381,771 from the General Fund to balance the fund. The Athletics Fund had a zero fund balance.

The Performing Arts Fund is a fund that reports activities of the professional performances at the Charlotte Performing Arts Center, including facility rentals. In 2008-2009 the Performing Arts Fund generated revenues of \$312,525 and had expenditures and other financing uses of \$296,663. At the conclusion of its fifth year of operation in 2008-2009, the Performing Arts Center had a fund balance of \$92,881.

The Community Service Fund is responsible for the District's community service and recreation activities, including the aquatic center. The fund had revenues of \$237,954 and expenditures and other financing uses totaling \$563,610. The Community Service Fund received transfers from the General Fund totaling \$325,654 to end the year with a fund balance of \$36.

The Childcare Fund is a fund that reports the activities of the District's childcare program. In 2008-2009 the Childcare Fund generated revenues of \$314,950. Expenditures and other financing uses for the fund totaled \$311,144. In addition, the fund received transfers from the Capital Projects Fund totaling \$1,528, to end the year with a fund balance of \$128,005.

D. Net Investment in Capital Assets

The District's net investment in capital assets decreased by \$1,030,485 during the fiscal year. This can be summarized as follows:

	<u>Balance June 30, 2008</u>	<u>Net Change</u>	<u>Balance June 30, 2009</u>
Capital Assets	\$ 79,888,913	\$ 694,961	\$ 80,583,874
Less: accumulated depreciation	<u>(23,947,197)</u>	<u>(1,725,446)</u>	<u>(25,672,643)</u>
Net investment in capital outlay	<u>\$ 55,941,716</u>	<u>\$ (1,030,485)</u>	<u>\$ 54,911,231</u>

In 1999, Charlotte Public Schools voters approved a \$40,660,000 general obligation bond issue. In 2001, another general obligation bond issue totaling \$22,175,000 was approved by voters. The proceeds from those bond issues were used for constructing new facilities and additions and partial remodeling of existing school facilities, and equipping and re-equipping facilities.

IMPORTANT ECONOMIC FACTORS

A. State of Michigan Unrestricted Aid (Net State Foundation Grant)

The State of Michigan aid, unrestricted, is determined with the following variables:

- a. State of Michigan State Aid Act per student foundation allowance
- b. Student Enrollment - Blended at 75 percent of prior year's fall count and 25 percent of prior year's winter count
- c. The District's nonhomestead property valuation

B. Per Student Foundation Allowance

Annually, the State of Michigan establishes the per student foundation allowance. The Charlotte Public Schools foundation allowance was \$7,316 per student for the 2008-2009 school year. This is an increase of \$112 from Charlotte Public Schools 2007-08 foundation allowance of \$7,204 per student.

C. Student Enrollment

The District's State Aid Membership for 2008-2009 was 3,194 students. The District's enrollment decreased from the prior school year's Fall student count.

The following summarizes the State Aid Membership counts for the past five years:

	<u>Student FTE</u>	<u>FTE Change from Prior Year</u>
2008-2009	3,194	(125)
2007-2008	3,319	29
2006-2007	3,290	(123)
2005-2006	3,413	38
2004-2005	3,375	16

D. Property Taxes levied for General Operations (General Fund Nonhomestead Taxes)

The District levies taxes of \$18.00 per \$1,000 of taxable valuation on most non-primary residency exempt property and \$6.00 per \$1,000 of taxable value on commercial personal property for operations (General Fund). Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or five (5) percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value. The District's nonhomestead property tax revenue for 2008-2009 fiscal year was \$2,349,841. The nonhomestead tax revenue decreased by 7.7% over the prior year.

In June 2003, the District was successful in passing a Headlee Ballot Proposal which will have the effect of allowing the District to levy during the succeeding five years the full 18 mill nonhomestead millage for operations as originally approved by voters in 1996. The 18 mill levy was renewed in May of 2006 for a period of ten years.

E. Debt Fund Property Taxes

The District's debt fund levy, which is used to pay the principal and interest on bond obligations, is based on the taxable valuation of all properties: homestead and nonhomestead. For 2008-2009 the District's debt millage levy was 7.59 mills, which generated revenue of \$4,151,204.

GENERAL FUND BUDGET & ACTUAL REVENUES & EXPENDITURES

Listed below is an analysis of the original budget and final budget to the final actual.

General Fund Expenditures and Other Uses Budget vs. Actual

<u>Fiscal Year</u>	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Variances</u>	
				<u>Actual & Original Budget</u>	<u>Actual & Final Budget</u>
2008-2009	\$26,731,784	\$27,639,991	\$27,376,151	(2.4%)	1.0%
2007-2008	\$25,332,579	\$26,620,297	\$26,011,836	(2.7%)	2.3%

General Fund Revenues and Other Sources, Budget vs. Actual

<u>Fiscal Year</u>	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Variances</u>	
				<u>Actual & Original Budget</u>	<u>Actual & Final Budget</u>
2008-2009	\$26,527,728	\$27,156,918	\$26,935,973	1.5%	(0.8%)
2007-2008	\$25,300,278	\$26,513,827	\$26,153,238	3.4%	(1.4%)

Original vs. Final Budget:

The Uniform Budget Act of the State of Michigan requires that the Board of Education approve the original budget for the upcoming year prior to July 1, the start of the fiscal year.

As a matter of practice, Charlotte Public Schools amends its budget periodically during the school year.

General Fund Expenditures:

The District's budget for expenditures changed as follows during the year:

		<u>Percent</u>
Total Expenditures Original Budget	\$ 26,731,784	100.0
Total Expenditures Final Budget	<u>27,639,991</u>	<u>103.4</u>
Increase in Budget Expenditures	<u>\$ 908,207</u>	<u>3.4</u>

The District's actual expenditures were less than the final budget by \$263,840 or 1.0 percent.

Some of the significant changes in expenditure budgets for the year include:

- Basic program costs were increased by \$179,375.
- Total added needs costs were increased by \$160,456.
- Student services costs were decreased by \$107,933.
- Instructional staff costs were decreased by \$111,158.
- Operations and maintenance costs were increased by \$734,346.
 - This increase resulted from an insurance reimbursed expenditure of \$851,576 due to significant hailstorm damage to Charlotte Public Schools facilities.
- Transportation costs were increased by \$62,315.
- Community services costs were decreased by \$20,637.

Revenue Change from Original to Final Budget:

		<u>Percent</u>
Total Revenues Original Budget	\$ 26,527,728	100.0
Total Revenues Final Budget	<u>27,156,918</u>	<u>102.4</u>
Increase in Budget Revenues	<u>\$ 629,190</u>	<u>2.4</u>

The District's final actual general fund revenues differed from the final budget by (\$220,945), a variance of (0.8%) from the final budget.

The final revenue budget reflects the following changes from the Original Budget.

- Local revenue was decreased by \$330,907.
- Federal funding for grants was increased by \$170,655.

Additional Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration considered many factors when setting the School District's 2010 fiscal year budget. One of the most important factors affecting the budget is our student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2010 fiscal year is 25 percent and 75 percent of the February 2009 and September 2009 student counts, respectively. The 2010 fiscal year budget was adopted in June 2009, based on an estimate of students that will be enrolled in September 2009. Approximately 80 percent of total General Fund revenue is from the foundation allowance. Under State law, the School District cannot access additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2009-2010 school year, we anticipate that the fall student count will be greater than the estimates used in creating the 2010 fiscal year budget. Once the final student count and related per pupil funding is validated, State law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on State Funding and the status of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenues to fund its appropriation to school districts.

RECONCILIATION OF THE CHANGE IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2009

Net change in fund balances - total governmental funds \$ (800,789)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 1,477,500	
Depreciation expense	<u>(2,507,985)</u>	
Excess of depreciation expense over capital outlay		(1,030,485)

Repayment of long-term debt and borrowing of long-term debt is reported as expenditures and other financing sources in governmental funds, but the repayment reduces long-term liabilities and the borrowings increase long-term liabilities in the statement of net assets. Also, governmental funds report the effect of the difference between the carrying amount of defeased debt and its reacquisition price when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. In the current year, these amounts consist of:

Net effect of amortization on deferred costs and other deferred amounts	(77,990)	
Bond principal retirement	1,655,928	
Bond and loan proceeds (including SBLF interest)	<u>(369,511)</u>	
Excess of bond principal retirement over bond proceeds		1,208,427

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Decrease in accrued interest payable	61,449	
Decrease in accrued severance pay	<u>16,318</u>	
		<u>77,767</u>

Change in net assets of governmental activities \$ (545,080)

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Charlotte Public Schools (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

As required by accounting principles generally accepted in the United States of America; GASB Statement No. 14, *The Financial Reporting Entity* (as amended by GASB Statement No. 39); and *Statement on Michigan Governmental Accounting and Auditing No. 5*, these financial statements present the financial activities of Charlotte Public Schools (primary government). The District has no activities that would be classified as component units.

Based upon the application of these criteria, the financial statements of the District contain all the funds controlled by the District.

2. Basis of Presentation

DISTRICT-WIDE FINANCIAL STATEMENTS

The statement of net assets and the statement of activities (the district-wide statements) present information for the district as a whole. All non-fiduciary activities of the District are included (i.e., fiduciary fund activities are not included in the district-wide statements). Interfund activity has been eliminated in the preparation of the district-wide financial statements.

The statement of activities presents the direct functional expenses of the District and the program revenues that support them. Direct expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues are associated with specific functions and include charges to recipients of goods or services and grants and contributions that are restricted to meeting the operational or capital requirements of that function. Revenues that are not required to be presented as program revenues are general revenues. This includes all taxes, interest, and unrestricted State aid payments and other general revenues and shows how governmental functions are either self-financing or supported by the general revenues of the District.

FUND FINANCIAL STATEMENTS

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The District utilizes governmental and fiduciary funds.

The governmental fund financial statements present the District's individual major funds and aggregated nonmajor funds. A separate column is shown for each major fund on the balance sheet and statement of revenues, expenditures, and changes in fund balances. Nonmajor funds are combined and shown in a single column. The fiduciary funds are reported by type.

The major funds of the District are:

- a. General Fund - The General Fund is used to account for money or other resources provided to the District to support the educational programs and general operations of the District.
- b. Capital Projects Fund - The Capital Projects Fund is used to account for broadband lease activities.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

3. Measurement Focus

The district-wide and fiduciary private purpose trust fund financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, reconciliations to the district-wide statements are provided that explain the differences in detail.

All governmental funds are presented using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

There is no measurement focus for the fiduciary agency fund since assets equal liabilities.

4. Basis of Accounting

Basis of accounting refers to the timing under which transactions are recognized for financial reporting purposes. Governmental fund financial statements use the modified accrual basis of accounting. The district-wide and fiduciary fund financial statements are prepared using the accrual basis of accounting.

Under the accrual basis of accounting, revenue is recorded in the period in which it is earned and expenses are recorded when incurred, regardless of the timing of related cash flows. Property tax revenue is recognized in the fiscal year for which it is levied. Revenues for grants, entitlements, and donations are recognized when all eligibility requirements imposed by the provider have been met. Unearned/deferred revenue is recorded in the applicable financial statements when resources are received by the District before it has legal claim to them, such as when grant monies are received prior to the incurrence of qualified expenditures.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues susceptible to accrual include property taxes, state and federal aid, and interest revenue. Other revenues are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

The District reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Resources are considered available if they are collected during the current fiscal year or soon enough afterward to be used in payment of current year liabilities - defined as expected to be received within sixty days of year-end. Deferred revenues also arise when the District receives resources before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

5. Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for all required governmental fund types.

The District does not maintain a formalized encumbrance accounting system. All annual appropriations lapse at fiscal year end.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means for financing them.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amounts appropriated.
- d. The budgets are legally adopted to the functional level; however, they are maintained at the object level for control purposes. Any revisions that alter the total expenditures at the functional level must be approved by the School Board.
- e. The Superintendent is authorized to transfer budgeted amounts for purposes of meeting emergency needs of the District; however, these transfers must be approved subsequently by the Board of Education.
- f. Formal budgetary integration is employed as a management control device during the year for all governmental fund types.
- g. The budget, as presented, has been amended in a legally permissible manner. Supplemental amendments were made during the year with the final amendments being approved May 11, 2009.

6. Cash and Investments

Cash consists of checking and savings accounts and imprest cash with an original maturity of 90 days or less.

Investments during the year consisted of certificates of deposit with original maturities of greater than 90 days. Investments are recorded at market value in accordance with GASB 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

7. Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" and "due to other funds" on the governmental funds balance sheet.

8. Inventories

Inventories are stated at cost on a first in/first out basis. The Food Services Fund inventory consists of food and paper goods. The General Fund inventory consists of gas, paper goods, and other miscellaneous items. Inventory amounts are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of total fund balance.

9. Due From Other Governmental Units

Due from other governmental units consists of various amounts owed to the District for grant programs and State Aid payments. The State of Michigan's funding stream of State Aid payments results in the final two (2) payments for the fiscal year ended June 30, 2009 to be paid in July and August 2009. Of the total amount of \$4,261,898 due from other governmental units, \$2,806,974 consists of State Aid, \$1,187,556 consists of ARRA stabilization funds, and the remaining \$267,368 from other governmental grants.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

10. Capital Assets

Capital assets include land, buildings and additions, equipment and furniture, vehicles, and other capital equipment and are recorded (net of accumulated depreciation, if applicable) in the district-wide financial statements. Capital assets are those with an initial individual cost greater than \$5,000 except for new computers, printers, data projectors and televisions which have no cost threshold and all new classrooms (recorded at total content cost) and an estimated useful life of more than one year. Capital assets are not recorded in the governmental funds. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the district-wide financial statements. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is computed using the straight-line method over the following useful lives:

Buildings and additions	15 - 50 years
Equipment and furniture	5 - 20 years
Vehicles	8 years
Other capital equipment	7 - 25 years

11. Deferred/Unearned Revenue

Governmental funds report deferred revenues in connection with receivables for revenue that is not considered available to liquidate liabilities of the current period and the unexpended balance of various federal and/or state categorical and local grants until the period in which eligible expenditures are incurred. Amounts shown as unearned revenue on the Statement of Net Assets relate to the same receivables and state categorical and local grants but are shown here because they are not earned.

12. Compensated Absences

Based on the requirements of GASB Statement No. 16, *Accounting for Compensated Absences*, the District has recorded all liabilities associated with compensated absences. Accumulated vested severance amounts and nonvested severance amounts that are probable to vest and be paid at termination are considered payable from future resources and are recorded along with the related payroll taxes as a long-term liability in the district-wide financial statements.

13. Short-Term Note Obligations

Short-term debt is recognized as a liability of a governmental fund and is included on the balance sheet of the applicable fund. During the current year the District borrowed funds to meet short-term cash flow borrowing needs. The District repaid all short-term note obligations prior to June 30, 2009.

14. Accrued Interest Payable

Accrued interest is presented for long-term obligations in the district-wide statements.

15. Long-term Obligations

Long-term debt is recognized as a liability in the district-wide statements when incurred. The portion of those liabilities expected to be paid within the next year is a current liability with the remaining amounts shown as long-term.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

15. Long-term Obligations - continued

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in a Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

16. Property Taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are levied as of December 1 and are due upon receipt of the billing by the taxpayer. The actual due date is February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity. School District property tax revenues are recognized when levied to the extent that they result in current revenue (collected as of year-end). Amounts received subsequent to June 30 are recognized as revenue when collected.

The District levies taxes of \$18.00 per \$1,000 of taxable valuation on most non-primary residency exempt property and \$6.00 per \$1,000 of taxable value on commercial personal property for general governmental services. The District levies \$7.59 per \$1,000 of taxable valuation on the total applicable taxable valuation of all property within the District for debt service. The District is also permitted to levy additional amounts for enhancement and/or debt service if voter approval is obtained.

17. State Foundation Revenue

Beginning with the fiscal year ended June 30, 1995, the State of Michigan adopted a foundation grant approach, which provides for a specific annual amount of revenue per student based on a statewide formula. Prior to the fiscal year ended June 30, 1995, the State utilized a district power equalizing approach. The foundation is funded from State and local sources. Revenues from State sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of State funds to school districts based on information supplied by the districts. For the year ended June 30, 2009, the foundation allowance was based on the average of pupil membership counts taken in September 2008 and February 2008. The average calculation was weighted 75% for the September 2008 count and 25% for the February 2008 count.

The State portion of the foundation is provided primarily by a State education property tax millage of 6 mills and an allocated portion of State sales and other taxes. The local portion of the foundation is funded primarily by nonhomestead property taxes, which may be levied at a rate of up to 18 mills. The State revenue is recognized during the foundation period (currently the fiscal year) and is funded through nine (9) payments made during the fiscal year and two (2) payment made subsequent to year-end. The local revenue is recognized as outlined above under Property Taxes.

18. State Categorical Revenue

The District also receives revenue from the State to administer certain categorical education programs. State rules require that revenue earmarked for these programs be expended for its specific purpose. Categorical funds received that are not expended by the close of the fiscal year are reported as deferred revenue, when they are present.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

19. Interfund Transactions

Interfund transactions are reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers are netted as part of the reconciliation to the district-wide financial statements.

20. Federal Programs

Federal programs are accounted for in the specific governmental funds to which they relate. The District has not integrated its Single Audit reports and financial data as part of the financial statements. The Single Audit reports and financial data will be issued under separate cover as supplementary information to the financial statements.

21. Comparative Data

Comparative data for the prior year has not been presented in the basic financial statements since their inclusion would make the statements unduly complex and difficult to read.

NOTE B: CASH AND INVESTMENTS

In accordance with Michigan Public Act 451 of 1976, Section 1223(1), as amended, the District is authorized to invest its surplus funds in the following types of investments:

1. Bonds, bills, or notes of the United States; obligations, the principal and interest of which are fully guaranteed by the United States; or obligations of the State.
2. Certificates of deposit issued by a State or National bank, savings accounts of a State or Federal savings and loan association, or certificates of deposit or share certificates of a State or Federal credit union organized and authorized to operate in this State.
3. Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.
4. Securities issued or guaranteed by agencies or instrumentalities of the United States government.
5. United States government or Federal agency obligation repurchase agreements.
6. Bankers' acceptances issued by a bank that is a member of the Federal Depository Insurance Corporation.
7. Mutual funds composed entirely of investment vehicles that are legal for direct investment by a School District.
8. Investment pools, as authorized by the Surplus Funds Investment Pool Act, Act No. 367 of the Public Acts of 1982, being sections 129.111 to 129.118 of the Michigan Compiled Laws, composed entirely of instruments that are legal for direct investment by a School District.

Michigan Public Acts authorize school districts in Michigan to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations. Deposits of the District are at federally insured banks and credit unions in the State of Michigan in the name of the School District.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE B: CASH AND INVESTMENTS - CONTINUED

The United States Congress has temporarily increased Federal Deposit Insurance Corporation (FDIC) deposit insurance from \$100,000 to \$250,000 per depositor through December 31, 2013. FDIC regulations provide that deposits of governmental units are to be separately insured for the amount of \$250,000 for deposits in an insured bank for interest-bearing savings deposits and \$250,000 for interest-bearing demand deposits. FDIC insurance coverage through its Transaction Account Insurance Program provides unlimited insurance on non-interest bearing transaction accounts and low-interest bearing (i.e., no higher than 0.50 percent) NOW accounts, this program is scheduled to end December 31, 2009. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of \$250,000. For the purpose of these rules, the term "savings deposits" includes NOW accounts, money market deposit accounts, and other interest-bearing checking accounts.

Deposits

There is a custodial risk as it relates to deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2009, the carrying amount of the District's deposits was \$3,477,451 and the bank balance was \$3,609,187, all of which was covered by federal depository insurance. The District had \$700 cash on hand.

Credit risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). As of June 30, 2009, the District did not have any investments that would be subject to rating.

Interest rate risk

The District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Concentration of credit risk

The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities authorized by the Board and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business in accordance with Board approved policy.

Michigan School Bond Loan Fund/School Revolving Fund

The School District has borrowed on various occasions from the Michigan School Bond Loan Fund/School Loan Revolving Fund. Repayment is due when the School District has funds available as determined by the State of Michigan. Interest accrues on the unpaid balance. During the year the interest rate ranged from 4.125 to 6.22 percent.

The School District borrowed \$63,428 in principal during this fiscal year and an additional \$306,083 accrued in interest payable. The balances at June 30, 2009 are as follows:

Principal balance	\$ 5,402,191
Interest balance	<u>1,349,207</u>
	<u>\$ 6,751,398</u>

Advance Refunding - Prior

On March 1, 2006 the District defeased the portion of the 2002 School Building and Site Bonds which are due and payable May 1, 2024 through May 1, 2027. This was accomplished by establishing an irrevocable trust with an escrow agent composed of cash and U.S. government securities sufficient to meet the applicable principal and interest obligations. The District issued General Obligation 2006 Refunding Bonds in the amount of \$7,500,000 to provide resources to fund the escrow amounts and pay the costs of issuance of the refunding bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. At June 30, 2009, bonds due and payable May 1, 2024 through May 1, 2027 for the 2002 School Building and Site Bonds in the amount of \$7,010,000 are considered defeased.

On May 4, 2005 the District defeased the portion of the 1999 School Building and Site Bonds which are due and payable May 1, 2010 through May 1, 2029. This was accomplished by establishing an irrevocable trust with an escrow agent composed of cash and U.S. government securities sufficient to meet the applicable principal and interest obligations. The District issued General Obligation 2005 Refunding Bonds in the amount of \$33,705,000 to provide resources to fund the escrow amounts and pay the costs of issuance of the refunding bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. At June 30, 2009, bonds due and payable May 1, 2010 through May 1, 2029 for the 1999 School Building and Site Bonds in the amount of \$33,350,000 are considered defeased.

Compensated Absences

In recognition of services to the District, a severance payment is made to eligible administrators with at least ten (10) years of service. Eligible administrators will be paid up to a maximum of ninety-five days of accumulated sick leave at a rate of \$75 per day.

Under GASB Statement No. 16 requirements, the District has elected to implement the "vesting" method of calculating the compensated absences liability. The amounts accumulated for all employees currently vested are calculated along with an amount for other employees who currently are not vested but are probable to vest in future years. The amounts for employees who currently are not vested are calculated taking total unused sick pay amounts at June 30, 2009 for all nonvested employees and multiplying it by a historical termination percentage. This percentage is based on an estimate of the percentage of employees who have terminated employment fully vested in the past five (5) years.

	<u>\$ 249,163</u>	<u>\$ 68,798</u>	<u>\$52,540,000</u>	<u>\$28,848,371</u>

The Durant Resolution Bonds referred to above are bonds whose future debt service payments by the District are contingent on an annual State of Michigan appropriation. This is the only revenue source for making the annual debt service payments on these bonds. If the legislature of the State of Michigan fails to appropriate the funds, in any particular year, the District is under no obligation for payment of that year's debt obligation.

It is not possible to project a payment schedule for the Michigan School Bond Loan Fund/School Loan Revolving Fund due to varying interest rates and timing of repayments. As a result, it is not included in the schedule above.

NOTE F: INTERFUND RECEIVABLES AND PAYABLES

The amount of interfund receivables and payables at June 30, 2009 are as follows:

Due to General Fund from	
Nonmajor governmental funds	\$ 90,593
Capital Projects Fund	<u>32,266</u>
	<u>\$ 122,859</u>
Due to nonmajor governmental funds from

	<u>\$ 124,766</u>

Charlotte Public Schools

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

NOTE F: INTERFUND RECEIVABLES AND PAYABLES - CONTINUED

Amounts appearing as interfund payables and receivables arise from two types of transactions. One type of transaction is where a fund will pay for a good or service that at least a portion of the benefit belongs to another fund. The second type of transaction is where one fund provides a good or service to another fund. Balances at the end of the year are for transfers that have not cleared as of the balance sheet date.

NOTE G: INTERFUND TRANSFERS

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. For the purpose of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

Transfers to General Fund from	
Capital Projects Fund	\$ 165,211
Nonmajor governmental funds	<u>82,201</u>
	<u>\$ 247,412</u>
Transfers to nonmajor governmental funds from	
General Fund	\$ 704,519
Capital Projects Fund	<u>8,548</u>
	<u>\$ 713,067</u>

The transfers from the Capital Projects Fund and nonmajor governmental funds to the General Fund were to offset a portion of costs of the District that were recognized in the General Fund. The transfers from the General Fund to the nonmajor governmental (Athletics and Community Service) funds were to cover operational costs related to the District's athletics and community service programs. The transfers from the Capital Projects Fund to the nonmajor governmental funds were to allocate broadband lease revenue.

NOTE H: EMPLOYEE RETIREMENT SYSTEM

Pension Plan Description and Funding Policy

All of the District's employees, except students, are eligible to participate in the State wide Michigan Public School Employees' Retirement System (MPERS), a multiple-employer, cost-sharing, State wide public employee retirement system. The MPERS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. The report for the fiscal year-end September 30, 2008, the last year available, may be obtained by contacting the State of Michigan, Department of Management and Budget.

The payroll for employees covered by the MPERS for the year ended June 30, 2009 was \$15,552,663 of which \$11,956,704 was for members who have elected the MIP option; the District's total payroll was \$15,927,794.

Effective January 1, 1987, Act 91 of the Public Acts of 1985 established a voluntary contribution to the Member Investment Plan (MIP). Employees first hired before January 1, 1990, made a one-time irrevocable election to contribute to the tax deferred MIP. For a limited period ended January 1, 1993, an active Basic Plan member may have enrolled in MIP by repaying the contributions and interest that would have been made had MIP enrollment occurred initially prior to January 1, 1990. Employees first hired on or after January 1, 1990, will automatically be included in MIP.

NOTES TO FINANCIAL STATEMENTS

NOTE H: EMPLOYEE RETIREMENT SYSTEM - CONTINUED

Pension Plan Description and Funding Policy - continued

Members in MIP may retire at any age after attaining thirty years of credited service, or at age sixty while still working with a minimum total of five (5) years of credited service, with credited service in each of the five (5) school fiscal years immediately preceding the retirement allowance effective date. The retirement allowance is calculated using a formula of 1.5% of the member's final average compensation multiplied by the total number of years of credited service.

Employees who did not elect the MIP option fall under the MPSERS Basic Plan and may retire after attaining age sixty with ten (10) years of credited service; or attaining age fifty-five with thirty or more years of credited service; or attaining age fifty-five while still working with at least fifteen (15) but fewer than thirty years of credited service in each of the five (5) school fiscal years immediately preceding the retirement allowance effective date. The retirement allowance is computed using a formula of 1.5% of the average of the highest total earnings during a period of sixty consecutive months (five (5) years) multiplied by the total years to the nearest tenth of a year of credited service.

Employees who selected MIP on or before December 31, 1989, contributed 4% from January 1, 1987 to December 31, 1989 and 3.9% thereafter. Employees first hired on or after January 1, 1990 through June 30, 2008 are required to contribute based on a graduated rate: 3% of the first \$5,000 (up to \$150); \$150 plus 3.6% of \$5,001 through \$15,000 (up to \$510 total); and \$510 plus 4.3% of all wages over \$15,000. Employees first hired on or after July 1, 2008 are required to contribute based on a graduated rate: 3% of the first \$5,000 (up to \$150); \$150 plus 3.6% of \$5,001 through \$15,000 (up to \$510 total); and \$510 plus 6.4% of all wages over \$15,000.

For the period of July 1, 2008 to September 30, 2008, the District was required by State statute to contribute 16.72% of covered compensation for all wages to the Plan. For the period of October 1, 2008 to June 30, 2009, the District was required by State statute to contribute 16.54% of covered compensation for all wages to the Plan. The total amount contributed to the Plan for the year ended June 30, 2009, and the previous two (2) years is as follows:

<u>June 30,</u>	<u>MIP</u> <u>Contributions</u>	<u>District</u> <u>Contributions</u>	<u>Total</u> <u>Contributions</u>
2009	\$ 467,215	\$ 2,578,043	\$ 3,045,258

Other Postemployment Benefits

Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. A component of the employer contribution rate for the pension plan factors into it amounts for other postemployment benefits and this amount is paid by the District.

NOTE I: FUND BALANCE RESERVES AND DESIGNATIONS

Reserved fund balance is used to earmark a portion of fund balance to indicate that it is not appropriate for expenditures or has been legally segregated for a specific future use. Designated fund balance indicates that portion of fund balance that the District has set aside for specific purposes.

The following are the various fund balance reserves as of June 30, 2009:

General Fund	
Reserved for inventories and prepaids	\$ <u>91,373</u>
Nonmajor governmental funds	
Reserved for inventories and prepaids	\$ 14,105

NOTE L: FLEXIBLE BENEFITS PLAN

In February 1996, the District approved by Board action to implement a flexible benefits cafeteria plan established under Section 125 of the Internal Revenue Code. The Plan, available to all employees, who are salaried or hourly and scheduled to twenty (20) hours or more each week, permits them to reduce their salary and put these amounts into a flexible benefits account up to certain limits. The plan allows the employee to reduce their salary and apply it to required premium payments, medical expense reimbursement benefits, or dependent care benefits. A participating employee may elect instead a cash alternative to supplement salary compensation in lieu of a nontaxable health benefit. An employee's elected cash alternative will be considered a taxable benefit under the Flexible Benefit Plan.

The Plan is administered by Charlotte Public Schools.

NOTE M: RISK MANAGEMENT

The District participates in a pool, the MASB-SEG Property and Casualty Pool with other school districts for boiler, property, fleet, liability, in-land marine, crime, employee dishonesty, and errors and omissions. The pool is organized under Public Act 138 of 1982, as amended as a governmental group property and casualty self insurance pool. In the event the pool's claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The District has not been informed of any special assessments being required.

The District also participates in a pool, the SEG Self-Insured Workers' Disability Compensation Fund, with other school districts for workers' compensation losses. The pool is organized under Public Act 317 of 1969, as amended. In the event the pool's claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to a special assessment to make up the deficiency. The District has not been informed of any special assessments being required.

NOTE N: SPECIAL EDUCATION UNDERFUNDING SETTLEMENT

Prior to the current year the Durant vs. State of Michigan case was settled and the State was required to reimburse each plaintiff and nonplaintiff District an agreed upon amount for past under funding of special education. Charlotte Public Schools, a nonplaintiff District, was awarded \$931,778 in the settlement. The funds are being paid as follows:

- a. One-half is being paid over the next ten (10) years, which began November 15, 1998. The restrictions on use of these funds are detailed within State School Aid Act, Section 11F (6). These funds were recorded within the General Fund as categorical State Aid. The year ended June 30, 2008 was the last year of payments of these funds.
- b. One-half is being paid over the next fifteen (15) years, which began May 15, 1999. The District borrowed this portion of the settlement amount through the Michigan Municipal Bond Authority on November 15, 1998. These funds were recorded as bond proceeds in the Capital Projects Fund. The bond proceeds may be used for any purpose specified in Section 1351 (a) of the Revised School Code. The debt service payments for these bonds are to be made through an annual legislative appropriation. If the State of Michigan legislature fails to make the annual appropriation the District is under no obligation for the debt payments for that year. The District has pledged the annual State payments to the Michigan Municipal Bond Authority for payment of debt service.

NOTE O: BONDED CONSTRUCTION FUNDS

The Capital Project Funds of the District include the capital projects activities funded in part by the 2002 Building and Site General Obligation Bonds. The remaining funding for the activities recorded within the applicable Capital Project Funds is funded by local appropriations from the General Fund, and other local dollars (i.e., interest, etc.) For these projects recorded within the Capital Project Funds, the District has complied with the applicable provisions of Section 1351 (1) of the Revised School Code in prior and current years. The 2002 Bond construction project was substantially completed in prior years and the applicable bond audit was done at that time.

NOTE P: SUBSEQUENT EVENT

On August 20, 2009, the District received funds from the Michigan Municipal Bond Authority short-term cash flow borrowing program. The loan in the amount of \$2,000,000 was for the purpose of funding operating expenditures until the fiscal year 2010 State Aid payments resume. Future anticipated State Aid and other local funds are expected to be sufficient to cover this commitment.

NOTE Q: LEASE AGREEMENT

On December 17, 2007, the District entered into a lease agreement with America Telecasting of Lansing, Inc. for the channels for Educational Broadband Service within the District. This lease is recorded as a receivable and deferred revenue at the fund level in the Capital Projects Fund based on generally accepted accounting principles in the United States of America. The terms of the lease are as follows:

The effective date of the lease was December 17, 2007 with an initial term of five (5) years and automatic renewal terms up to twenty-five (25) years. At the end of each five (5) year time period either party can terminate the lease. Therefore, the noncancellable period is booked as a receivable/deferral at the fund level at June 30, 2009. In addition, the June 2009 payment of \$8,544 was not received as of year end, so that payment is included in the receivable at June 30, 2009. The lease payments are paid to the District monthly and range from \$8,295 to \$9,336 during the current five (5) year period under lease. Because the amounts are not earned as revenue until the end of each month the amounts not earned are recorded as deferred revenue at the fund level and unearned revenue at the District-wide level.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Education
Charlotte Public Schools
Charlotte, Michigan

Compliance

We have audited the compliance of Charlotte Public Schools with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. Charlotte Public Schools' major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Charlotte Public Schools' management. Our responsibility is to express an opinion on Charlotte Public Schools' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Charlotte Public Schools' compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Charlotte Public Schools' compliance with those requirements.

In our opinion, Charlotte Public Schools complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ending June 30, 2009.

Internal Control Over Compliance

The management of Charlotte Public Schools is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Charlotte Public Schools' internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Charlotte Public School's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a Federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a Federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a Federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Charlotte Public Schools as of and for the year ended June 30, 2009, and have issued our report thereon dated October 5, 2009. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise Charlotte Public Schools' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Education and administration of Charlotte Public Schools, others within the District, the pass-through grantors, and the Federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

June 30, 2009

NOTE A: BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of Charlotte Public Schools and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*.

NOTE B: SUMMARY OF SIGNIFICANT EXPLANATIONS OF SCHEDULE

The following descriptions identified below as (a) through (g) represent explanations that cross reference to amounts on the Schedule of Expenditures of Federal Awards.

- (a) The current year expenditures for the Food Donation Program are determined based on the 2002/03 guidance provided in the Michigan Department of Education Administrative Policy Number 7. The amounts reported in this schedule as commodities received were taken from the Recipient Entitlement Balance Report which is in agreement in all material respects with the District's reported amounts.
- (b) The expenditures reported in this schedule are in agreement with the amounts reported in the financial statements and financial reports. The financial reports tested, including claims for advances and reimbursements, were materially correct, complete, accurate, and timely and contain information that is supported by the books and records from which the financial statements have been prepared.
- (c) The amount of out of condition commodities due to spoilage or shrinkage included in expenditures is immaterial to the Schedule of Expenditures of Federal Awards taken as a whole.
- (d) The amounts reported in this schedule as cash received are in agreement with the cumulative payment amounts in the Grants Section Auditors Report and the "paid during date range" amounts on the Grant Auditor Report.
- (e) Denotes program tested as "major program".
- (f) Denotes programs required to be clustered by the United States Department of Agriculture.
- (g) Agrees to total revenues from Federal sources per financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education
Charlotte Public Schools
Charlotte, Michigan

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information Charlotte Public Schools, Michigan, as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 5, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Charlotte Public Schools' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings as finding 2009-1.

The District's response to the finding identified in our audit is described in the accompanying Schedule of Findings. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Education and administration of Charlotte Public Schools, others within the District, the pass-through grantors, and the Federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Section II - Financial Statement Findings

2009-1 BUDGETS

Condition: As noted in the required supplementary information to the financial statements, certain activities in the General Fund and three (3) of the Special Revenue Funds in total exceeded the amounts appropriated. While individually these overages did not appear to be material to the financial statements as a whole, they were still noted budget overages that professional standards require us to report.

Criteria: Michigan Public Act 621 of 1978, as amended, provides that the District adopt formal budgets for all applicable General and Special Revenue Funds, and shall not incur expenditures in excess of the amounts appropriated. Also, the Public Act requires amendments to be performed prior to incurring additional expenditures.

Section II - Financial Statement Findings - Continued

2009-1 BUDGETS - CONTINUED

Effect: The District had instances of budgetary noncompliance relative to State law in the areas where the overages occurred.

Recommendation: We recommend the District continue to do the extensive amount of work that is already being done and continue to monitor expenditures against adopted budgets in all applicable funds and make appropriate budget amendments as needed.

Corrective Action Response: Management of the District is currently reviewing procedures related to budgetary compliance in accordance with State law.

Control Deficiencies and Material Weaknesses Related to Internal Controls Over the Financial Statements.

No prior audit findings.

Findings Related to Compliance with Requirements Applicable to the Financial Statements.

2008-1 BUDGETS

Condition: As noted in the required supplementary information to the financial statements, one (1) minor activity in the General Fund and the Food Service (Special Revenue) Fund in total slightly exceeded the amounts appropriated. While in total these overages did not appear to be material to the financial statements as a whole, they were still noted budget overages that professional standards require us to report on.

Resolution: A similar issue was noted during the current audit and repeated in the Schedule of Findings. We do not consider this issue resolved.

Findings Related to Compliance with Requirements Applicable to Federal Awards and Internal Control Over Compliance in Accordance with OMB Circular A-133.
