The Case of the Burning Camper

If you visited the Charlotte Upper Elementary a few weeks ago and witnessed a camper that appeared to be on fire, have no fear. Thanks to the Charlotte Fire Department, our entire 4th grade participated in their Fire Prevention program. Along with practicing how to safely crawl through a smoke filled room, students learned about exit strategies during a fire, carbon monoxide and smoke detectors, and general fire safety procedures. The 4th graders were *burning* with excitement to be able to participate in this year's fire prevention activities. Shortly after this event, the Charlotte Upper Elementary conducted our first Fire Drill of the year under the watchful eye of the fire chief. We received glowing feedback about efficiency and student behavior during the drill.
