### **Weymouth Adds a Young Toddler Room to their Center**

Charlotte Public Schools' Weymouth Child Development Center just completed the process of adding another classroom to their center. An increase in demand on enrollment in the classrooms for Infants-Preschool, as well as a Before and After school and Summer program for their K-12 students, and a renewed focus on early childhood education, made the additional space necessary. In order to increase the families we can serve and provide the best learning environments possible, we added a second toddler room to the Center. The goal of this

classroom is to provide the perfect environment for the stage between infancy and older toddlerhood. This classroom will be for the mobile infants and younger toddlers and will work on such skills as sitting at the table for meals, using utensils, short group times, and a more structured daily schedule. Of course they will be learning everything through play in an open, inviting environment. Everything for toddlers is hands on, experiencing real life objects, and learning with all of their senses. Weymouth is very excited for this addition to our program! Please contact Jen Radee at (517) 541-5181 for additional information.
