CHARLOTTE PRINCIPAL RECEIVES FELLOWSHIP

Charlotte Public Schools is proud to announce that High School Principal, Bill Barnes, is 1 of 50 educators chosen in the State of Michigan to participate in the America Achieves Michigan Educator Voice Fellowship. This highly-selective Fellowship provides a platform for sharing best practices, developing resources and tools, scaling effective teaching and school leadership, and giving educators a voice in local, state, and national discussions about public education. Fellows are excellent educators (teachers & principals) who have demonstrated success with the Common Core and are ready to share their voices and classroom experiences with parents, policy makers, and the public, primarily through the use of social media. Mr. Barnes will have the opportunity to highlight the great things going on in the high school and in the district, and he will be able to lend his voice to educators across the state to help impact the public and policy around education issues. Congratulations Mr. Barnes! Oriole Pride!!
