BUSINESS MANAGEMENT STUDENTS VISIT EATON FEDERAL SAVINGS BANK

Charlotte High School students enrolled in Tina VanSyckle's Business Management 1 course participated in a group job shadow, work site visit. On November 7, students traveled to Eaton Federal Savings Bank, Charlotte branch. During the welcome and introduction, students learned more about Eaton Federal Savings Bank and their history. Senior loan officer, Garrett Bensinger, shared the company's mission statement and core values. Students listened to many department leaders and managers, and learned about each role within the company. They were introduced to the workplace and the career opportunities available. Bensinger provided a group tour of the headquarters where students learned about different business careers including mortgages, marketing/communications, IT, management, human resources, and customer service.

"This work-based experience is part of our Career and Employability Skills Standard and is designed to help students explore a career choice as well as observe employability skills. These include using technology, attending work daily and on time, work behaviors and personal qualities needed to be employable, meeting deadlines, following directions, accuracy, problem solving, paying attention to details, working independently and as a team member," Tina VanSyckle said. Bensinger spent a few minutes emphasizing the importance of these skills in the workplace. He also shared the importance of having fun and enjoying your career.

The students from the Business Management 1 class would like to thank Garrett Bensinger, and the other employees from Eaton Federal Savings Bank for a wonderful morning and a positive learning experience.
