New Second Grade Teacher Joins the Parkview Teaching Staff

Ashley Ancrile has joined the second grade team as a new teacher at Parkview Elementary School. Ms. Ancrile graduated from Michigan State University with both her bachelor's and master's degrees in Language Arts and Teaching and Curriculum. She taught previously at South Elementary School in Coopersville, Michigan.

Ms. Ancrile was drawn to Charlotte for the multiple opportunities offered to students to thrive in an educational setting. With rigorous curriculum, one-to-one technology, high expectations, and a caring staff, each individual is able to identify their passions and make growth both academically and socially. She is thrilled about the Early Middle College that gives students an opportunity to develop their career skills along with earning college credits.

Song writing and playing the piano is a special talent of Ms. Ancrile. She has even recorded and produced her own CD.

Ms. Ancrile would like all of her students to know that in their classroom, they are a family who supports one another and encourages each other to always be themselves, to try their hardest, and to never be afraid to ask questions.
