

Traffic Pattern Overview for Galewood Early Elementary School

This document diagrams the traffic flow for parents dropping students off in the mornings, as well as picking them up in the afternoons. It is important to note that a “Kiss and Drop Zone” will be in effect, and parents are asked to have their students ready for a quick departure via the driver’s side passenger door. Parents wishing to assist their students or who need to get out of their vehicles for any reason should not use the “Kiss and Drop Zone.” Rather, they should **pull onto the campus via Pike St. and follow the gravel drive** until reaching the parking lot where they can park. Parents must accompany their student through the parking areas to the Main Entrance of the school.
