Charlotte Public Schools is experiencing increased enrollment in our lower and upper elementary grade levels. Our developmental kindergarten, kindergarten and grades first through sixth are experiencing strong numbers. We have added class sections due to the increased enrollment numbers and as a result, our school district has some open positions. We continue to screen applicants and their credentials, qualifications and certifications. It is our goal to have open positions filled as soon as possible. Our district website and media sites have the available positions posted, so please refer to those sites if you are interested in the employment opportunities available.

With the additional classroom sections, our district has made adjustments to classrooms within our buildings and taken the appropriate steps to create excellent learning environments with furnishings, equipment and curricular materials.

Once again, I want to welcome students, parents, guardians and all staff back to the 2017-18 school year. Our school district has offerings related to STEM, robotics, college readiness, career pathways, extra-curricular opportunities, athletics, fine and performing arts, CTE and many other opportunities for our students. Get involved and take advantage of everything that Charlotte Public Schools has to offer.

Go Orioles! Oriole Pride!!
